Date of birth
13.10.2003

Nationality
Estonian

Driving licence
B, AM

Skills

PCB design

EMC and RF measurements

C programming

Python programming

Team leadership

Communication

Working under pressure

Car mechanics

Languages

Estonian

English

Tools

Altium Designer, KiCad, LTspice, Siemens NX, Fusion 360

Hobbies

Car mechanics, electronics, programming, 3D printing and modelling, sailing

Profile

I am a third-year Hardware Engineering and Programming student at TalTech (weighted average grade 3.95/5, 132 ECTS completed) and the team captain (CEO) of FS Team Tallinn. Before that I was responsible for the team's electromagnetic compatibility (EMC) and signal measurements. I am drawn to the point where electronics, measurement and programming meet.

Work experience

Team Captain (CEO), FS Team Tallinn

August 2026 — present

I lead a team of more than 100 students in 7 sub-teams that builds an electric and driverless race car, responsible for strategy, budget, sponsor relations and recruitment.

Electronics Engineer (EMC), FS Team Tallinn

September 2025 — August 2026

Responsible for solving the car's EMI problems: a systematic EMC test programme, TDR impedance measurements of the CAN bus and PCBs, noise mapping, and shielding and conducted-emission tests. Developed near-field probes and a comb generator for the team. Also enclosure CAD design and programming.

Student Marketer, TalTech

November 2024 — June 2025

Visiting schools and education fairs to present TalTech's IT study programmes.

Military Service, Headquarters and Signal Battalion

July 2023 — June 2024

Completed the Junior NCO Course and was promoted to Junior Sergeant.

Delivery Driver, Saku Läte

August 2022 — September 2022

Delivering goods to customers and planning each day's route and stock quantity.

Education

Bachelor's degree, TalTech

September 2024 — present

Hardware Engineering and Programming (weighted average grade 3.95/5, 132 ECTS completed). Thesis: “Developing a Noise Standard for Formula Student”, supervised by Kaiser Pärnamets.

High School, Saku Gymnasium

September 2020 — June 2023
